

## THE CONTENTS OF VOLUMES 32—39

The Geological Society of Finland began its publishing activities in 1929. The papers titled *Comptes Rendus de la Société géologique de Finlande* appeared together with the *Bulletin de la Commission géologique de Finlande* as a double edition. Thus each of the thirty-nine

volumes so far issued bears two serial numbers, e.g. *C. R. Soc. géol. Finlande* 39; *Bull. Comm. géol. Finlande* 229. The contents of volumes 1—31 are published in »Guide to the publications of the Geological Survey of Finland», 1960. The contents of volumes 32—39 are listed here.

Suomen Geologisen Seuran Julkaisuja — Meddelanden från Geologiska Sällskapet i Finland — *Comptes Rendus de la Société Géologique de Finlande*. XXXII. 1960. xvii, 176 p. *Bull. Comm. géol. Finlande* 188.
